I thought the program was designed very well. It was easy to follow and learn at your own pace which was very helpful. I also liked listening to the professor audio sections.
I was worried his class would be hard to do online but he modules did a great job explaining material
Overall online experience is smooth. The list of assignments is a bit cluttered on canvas as there are a lot of discussions with no due dates that don't pop up in the assignment view. It would be nice if the discussions had due dates in canvas as the "midpoint of the module" deadline seemed a little ambiguous. It was possible to find extinguir but the canvas could be organized a little better.

What were the strengths of this course and/or this instructor?

Comment
Professor Roth has very good explanations of the material throughout the course and offered options for review and extra enrichment
He was always available for office hours and zoom calls. He is also very active with email. Such a great class
This is asynchronous course but I will say that Professor Roth did a good job making the course materials and teaching the content. I think that the pacing of the course and the content is set up so that anyone can succeed in this class without prior knowledge.

What could the instructor do to make this course better?

Comment
N/A
Make it so that assignments are configured properly so that when I click on the "assignments" tab in canvas it shows all of the upcoming deadlines and things that need to be done.

Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

Comment
Prof Roth is a good professor and his humor in some of the module lessons makes the content a little more exciting. I am not a biology major and it usually isn't my most favorite subject but professor Roth still managed to make the class enjoyable even while being asynchronous.
